Depth: 31"
Weight: 630 lbs.
Electrical: 115VAC/60Hz/1.2A
Max. capacity: 60 unique SKUs,
1,800 total products

Trajectory Cloud™: The Smarts Behind the Axxess 6000 and EDGE 5000 Series

Our Trajectory Cloud™ platform is what makes these smart devices absolutely brilliant. You'll know who used what, when and where, 24/7. And you can automate replenishment and set up alerts and notifications to manage service, maintenance and calibration.

Apex Connect n' Go™ Technology Makes It Easy to Implement

All Apex devices are easy-to-use Internet appliances (MS Windows-free). They're powered by our Connect n' Go™ Technology, so you simply plug the device into a power supply, connect to the Internet and you're ready to go.

Technology That Counts

Axxess™ 6000 Series
& EDGE™ 5000

Axcess™ 6000 Series

Individual compartment control for managing truck kits, bags and high-cost electronic devices

Secure Access
Control access based on vehicle, team, job role, department and more

Versatile Configurations
Choose from 4 locker heights and a variety of compartment sizes to create your ideal dispensing solution

Enhanced Product Visibility
Clear doors and bright interior lighting encourage quick, accurate item selection

Accessible Design
Internal controller can be lowered to meet accessibility guidelines and includes a Braille display

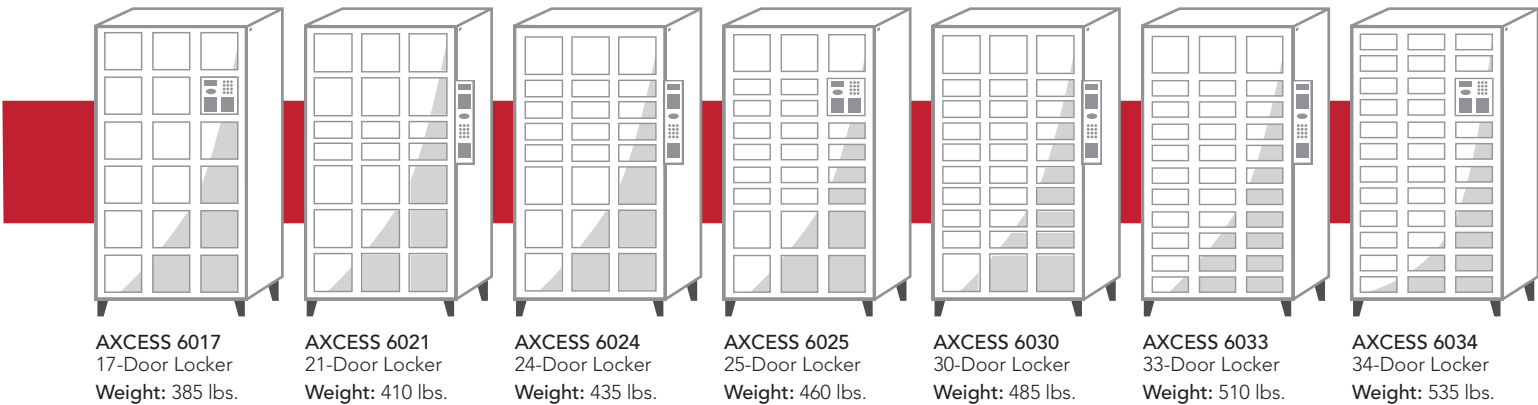

Supports a Wide Range of User ID
Choose an internal or stand-alone controller with options for barcode, magnetic stripe, proximity card or keypad entry

Keep Assets Charged
Compartments can be wired to recharge devices so they're always ready to work

- Secure check-out and check-in**
Gain control of high-cost and high-risk items like ALS/BLS bags, truck kits, narcotic boxes and radios. Items can be securely checked out, their usage recorded, and checked back in.
- Gain accountability and control**
Keep critical items in view, in control and in stock. Data from every check-out and check-in goes to Trajectory Cloud™, so you'll always know who's using what, when and where, and quickly spot waste or misuse.
- Automate alerts for service and loan periods**
Set service and loan periods for various users and devices, and receive notifications when items are overdue.
