U.S. PATENT	5,958,420
INGREDIENTS	Purified Water, Melaleuca Alternifolia, Emulsifiers and Preservatives

BurnFree solves the immediate first aid needs for all types of burns by relieving the pain, rapidly removing the heat, and cooling the burn.

BurnFree gel is viscous enough for it to remain on the burn wound and not run off, while simultaneously drawing the heat out of the skin and up into the gel. This gel is ideal for all minor burns. It is the same solution found in the burn dressings and fire/trauma blankets. The 3.5g packet makes BurnFree Pain Relieving Gel portable enough to always have on hand, even when away from home and easy to use to treat burns.

The 1,000 piece bulk pack of single dose packets are ideal for ensuring that you and your employees will always be prepared for minor burns at restaurants, schools, in the work place as well as being able to refill your first aid and burn kits.
