

# eso INVENTORY MANAGEMENT

Secure and simple inventory for daily EMS work routines.

Spend less time getting ready and more time being ready. Take control of your inventory with refreshingly simple and dynamically modern Inventory Management.

Made for:

EMS

FIRE

The screenshot displays the ESO web application interface. On the left is a dark sidebar with a menu including 'Action Now', 'Inventory List', 'Transfers', 'Orders', and 'Portable Assets'. The main content area is titled 'Manage Portable Assets' and shows a list of actions: 'Check into safe', 'Check out of safe', 'Swap', 'Refill', 'Start shift Pick up', 'Handover', 'Stock count', and 'Reassign vehicle'. The 'Check into safe' action is selected, leading to a 'Check in portable asset' page. This page includes a table of assets, a dropdown for 'Person checking in lockbox5', and fields for 'Station' and 'Sublocation'. A 'Seal number' field is also present with a confirmation prompt.

Portable Asset	Location	sublocation	Assigned to
Lockbox 5	Amb1500	Vehicle-safe	David Jones

## Balance cost control and medication availability.

Minimize waste and optimize your supplies by moving expiring medications to locations that need them and avoid overstocking shelves.

## Streamline the replenishment process with key integrations.

Simplify your ordering and restocking process by directly accessing vendors like Life-Assist through our platform, where you can see pricing and receive tracked order updates - all in one place.

## Improve visibility and readiness with real-time inventory levels.

Get your hands on real-time inventory level insights for all locations, their restocking requirements, and reorder status.

## Some favorite features in the single platform:

- ✓ ePCR and ESO EHR integrations - the real key to modern inventory management!
- ✓ Supply vendor integrations made easy with Life-Assist
- ✓ Controlled substance tracking
- ✓ Stock checks
- ✓ Real-time insights
- ✓ Action lists
- ✓ Reorder status
- ✓ Modern workflow
