

TruAir®

Economically priced. Tried and true, traditional style. **TruAir®** answers the call for cost-effective respiratory protection. And this popular brand is also one of the most complete – now available in five NIOSH-approved options: N95, N99, N100, R95 and P100 solutions.

Gateway Safety's **TruAir** respiratory line may include different filtration levels, but all **TruAir** products offer the same great features. A large, molded shell helps reduce breathing resistance and minimize fatigue. An adjustable metal nosepiece allows the user to obtain a tight seal around the nose. Plus, latex-free, dual elastic head straps help with a secure fit.

Get NIOSH-approved protection in a traditional style that won't break the bank. For those in need of disposable respiratory protection, turn to the **TruAir** family.
