

NEW XCOLLAR

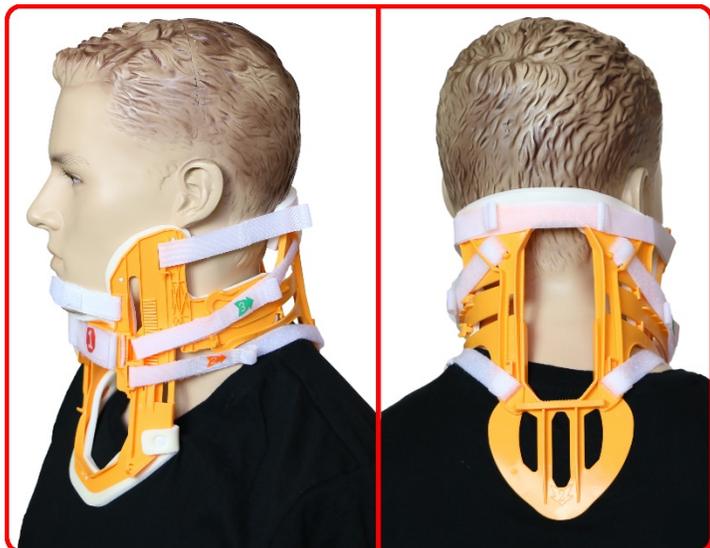

EVOLUTION OF A LIFE-SAVING DEVICE

Over a decade of research, field experience, and feedback from thousands of EMS professionals has led to the creation of the NEW XCOLLAR

The New XCollar Provides Cervical & Airway Stabilization

- Increased level of stabilization and safety for critical patients
- Optimum oxygen delivery to the brain
- Unique integrated advanced airway stabilization

- Immobilization in Position of Comfort
- Quick access for patient assessment without manipulation
- Better care for larger and smaller patients alike
- Easy to use under any conditions
