

5 REASONS to Choose

SemperSure® Green

2 MANUFACTURED WITHOUT CHLORINE

- Removing chlorine in the mfg. process is more eco-friendly, as this process creates harmful by-products that can be released into the air and water.
- Chlorination can cause gloves to become more brittle over time, reducing their elasticity. It can also leave a residual odor."

1 SKIN-FRIENDLY ACCELERATOR-FREE

- Manufactured without harmful chemical accelerators - reduces risk of skin irritation.
- Low dermatitis claim recognized by FDA and tested on humans.
- Preventative care to help reduce the risk of developing sensitivity to nitrile gloves (contact dermatitis) due to prolonged glove use.

3 EARTH-FRIENDLY GREEN MANUFACTURING

- Sustainably produced with our innovative, green technology conserving natural resources:
 - 12% less water consumption
 - 17% less CO₂ emissions
- Bright, mint-green color to emphasize the eco-friendly benefits.

4 ENHANCED COMFORT

- Advanced nitrile formulation facilitates optimal 'touch and feel' instilling confidence when handling medical instruments.
- Promotes easy donning thanks to an inner polymer coating.

5 CHEMO CLAIM

- Meets USP 800 requirements for PPE compliance for chemotherapy.
- To carry a chemo claim, the glove must adhere to specific requirements set forth by the FDA and pass testing* against permeation of the actual cytotoxic chemicals.

* Testing results available by request.

Our inner boxes are made of 80% recycled material.
Our outer cartons are made of 90% recycled material.

LOVE the PLANET
www.glovetheplanet.com

Glove the Planet® is our commitment to reducing our environmental impact. By thinking ahead and consuming less, we're able to do more to minimize our global footprint with every step we take. Our commitment to environmental sustainability drives innovative production and distribution practices that lead to greater efficiencies, resulting in less waste, reduced emissions, and a healthier planet for future generations.
