

The Generation 3 First Aid QuickRoll intubation kit is a lightweight, compact, minimalistic approach to carrying airway equipment.

This module is designed to organize basic and advanced airway equipment for EMT intubation or basic airway adjunct procedure(s). The single-buckle closure allows fast, one handed access. The fact it rolls up makes it very quick to access and stow. This is a perfect accessory intubation kit for any StatPacks® main packs.

Dimensions: 10" x 8" x 4"
